

BESPOKE BATHROBE

After the success of its diamond cufflinks, Scabal is launching a new luxury item that's only available for a limited period. The bespoke dressing gown by Scabal can be ordered in all Scabal's outlets worldwide, and will be delivered within four weeks. Made only from the best cashmere fabrics, the dressing gown is based on Scabal's personalization program that allows you to create a garment to suit your measurements and personality, thanks to various customization options such as embroidered initials. It's a must-have, developed from an original idea by German retailer Stephan Görner.
